

# 65" UHD Display LG 4K

## Key Features

IPS 4K offers outstanding picture quality, which is four times brighter than Full HD. Wide viewing angle except that delivers undistorted images regardless of the place where the television watching, and thanks to stable image viewers can watch content without color blurring even in physical contact with the screen.

HDR Pro adjusts the screen brightness, and thus provides a realistic image. With LG's UHD TV you can enhance the color by adjusting the brightness of the screen to highlight all the details. With HDR Pro Now you can enjoy vivid and realistic content.

Thanks to this screen image remains exactly the same place at any viewing angle. So you can enjoy a rich and vibrant colors from any place in your living room.

System 3D Color Mapping expresses realistic colors through the 3D Gamut Mapping Algorithm. You can enjoy an almost natural color due to minimize color distortion.

ULTRA Surround enables a conventional two-channel speaker functioned as a virtual speaker sedmikanálový. The viewer thus has access to ULTRA Surround Sound technology, which maximizes 4K viewing experience.

## Specifications

Energy-efficiency class	A++
Typical power consumption when switched on	73 W
Screen size	165 cm (65")
Type	Smart TV
Type	Technology LCD LED
Operating system	WebOS 3.0
Tuners	DVB-T2 - HEVC (CDA certification), DVB-T2 - HEVC, DVB-T, DVB-S2, DVB-C
Multimedia features	Built-in Wi-Fi, DLNA, Playback from USB, Web browser, EPG, Teletext
Applications	HBB TV
Display resolution	Ultra HD 4K (3840 x 2160)
Index image processing	1300 PQI / 100Hz Refresh rate panel
Dynamic range	HDR
Inputs/Outputs	Graphics input HDMI 2.0 and older , Composition, Component, HDMI 3 × USB 2.0, Headphone output, Digital optical/Digital audio output, LAN, CI / CI+
Colour	Black
Stand-by energy cons.	0.3 W
Width	146.00 cm
Height	90.2 cm
Depth	26.3 cm
Height without stand	84.6 cm
Depth without stand	5.85 cm
VESA mounting	300×300 mm
Weight	27.4 kg
