## Stunning picture quality and design

Make every visual experience impactful. QHB / QMB / QBB Series provides head-turning visuals with true-to-life colors and elevates every piece of content to 4K with industry-leading video processing technology. With reliable, non-glare panels and an unintrusive design, audiences see every piece of content clearly, without distraction.

Dynamic Crystal Color

Quantum Processor 4K

Non-glare

* QBB Series is not supported.

Enhanced functionality for professional environments

The camera must be purchased separately.
- Supported cameras (9 models)
- Logitech C930e, C922, C922x, C925E, C920s, C920, C920-C, C930C, Logitech Stream Cam

Video Call Application

Connect with colleagues without unnecessary connections. Featuring easier video conferencing than ever, the QHB / QMB / QBB Series has a built-in video conference solution that supports the most popular web conferencing apps, enabling simple video calls with just a USB-type webcam.

* Video Call Application will be available through a firmware update launching in Q2 2022.

1 Screen   2 Screens

3 Screens   4 Screens

SmartView+

SmartView+ enables wireless screen sharing without cable connections, ensuring full collaboration. Users can now enable screen sharing functionality at the start of a meeting, allowing the meeting admin to quickly switch between screens with one click. Plus, admins can cast up to four screens at the same time, creating dynamic environments that encourage participation.

* Windows, Android, iOS are supported. (Mobile OS will be available from the firmware update in Q2 2022.)

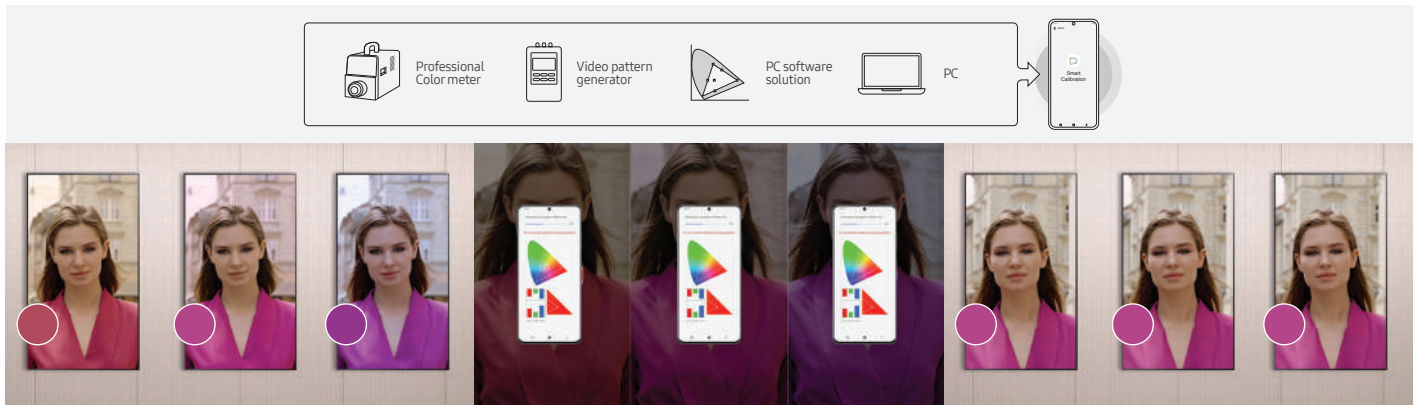

Director Mode

Featuring built-in Director Mode, Samsung QHB / QMB / QBB Series signage allows users to minimize post-processing to bring images closer to the director's original intention. From color representation to picture proportion, directors can express their vision without any distortion.

DICOM Simulation Mode

Medical teams can collaborate more efficiently and effectively than ever thanks to Samsung QHB / QMB / QBB Series DICOM Simulation Mode, which meets 100% of grayscale required by DICOM standard. Plus, it helps to simulate medical images such as X-rays.
Streamlined set up and easy maintenance

Smart Calibration

Guarantee complete brand consistency across every display in every location. Using the Samsung mobile app, Smart Calibration ensures every display is calibrated correctly, showcasing brand logos and other collateral in the exact colors required.

* Smart Calibration will be available through a firmware update launching in Q2 2022.

Tizen Zero Config

Tizen Zero Config is essential for IT managers operating multiple units in different locations. After a display is installed, IT professionals can register new apps through Tizen Business Manager and remotely install, eliminating needless travel and local installations.

* Tizen Zero Config will be available through a firmware update launching in Q2 2022.

Custom Home

Designed for IT professionals to simplify conference room management, Custom Home allows admins to lock specific meeting room settings, preventing users from changing display settings in between meetings. Now, conference rooms can work throughout the day as intended, with no errors, allowing IT to focus on other important tasks.

Upgradable Web-engine

Upload any piece of content, no matter how innovative. QHB / QMB / QBB Series constant web-engine upgrades enables the latest types of content to be played without limitations, allowing for more diversified and engaging creative assets.

Stunning picture quality and design

Conventional | Dynamic Crystal Color

Dynamic Crystal Color

Experience crystal clear, lifelike color with 64 times more shades than conventional UHD displays. Dynamic Crystal Color captures subtle differences for virtually flawless color expression using 10-bit processing, ensuring content is as lifelike as possible.

Conventional glare | Non-glare

Non-glare

All QHB / QMB Series displays feature reliable, non-glare panels that provide better visibility from all angles, any time of day. The non-glare display enables businesses to deliver accurate information in critical locations, such as airports and train stations.

| Conventional | QHB/QMB/QBB Series | Conventional | QHB/QMB/QBB Series | Conventional | QHB/QMB/QBB Series |

Intelligent UHD engine | Noise Reduction | Edge Restoration

Quantum Processor 4K

Samsung's industry-leading video processing technology enhances every piece of content for clarity and consistency. Intelligent UHD upscaling technology, powered by Samsung's Quantum processor 4K, elevates lower-resolution video to UHD-level quality, providing professional picture quality.

* When compared to Samsung's FHD model.
* Viewing experience may vary according to types of content and format.

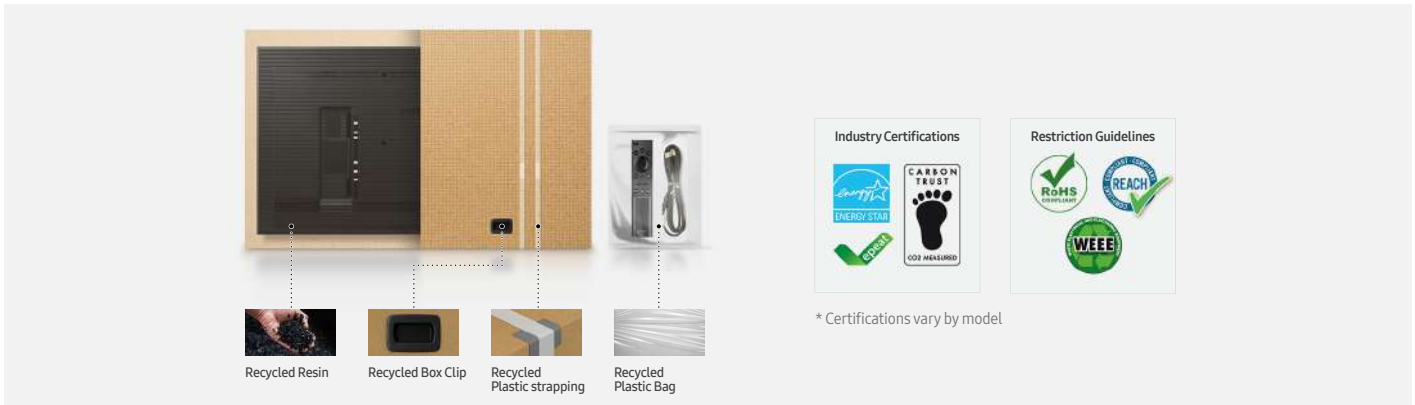

AS IS | QHB / QMB / QBB

Slim and symmetrical design

Narrow bezels and a symmetrical design allow for seamless integration into any environment with simplified mounting and installation. To maximize space savings, all terminals face outwards, ensuring the display hangs flush against any wall.

Clean cable guide

QHB / QMB / QBB Series blends perfectly into any business environment. With clean cable guide feature, the screen draws maximum focus to what is on the display, not the cables connected to it.

Eco-packaging and industry certification to greenify our world
